Application Process 2017

ⓘ About Us

Sudo is a community-run initiative with the mission to create a collaborative and inspiring space for women to gain technical skills. Through monthly workshops and meetups, we strive to be a dedicated resource to encourage women to be compassionate and skilled developers.

In July 2016, Sudo began hosting monthly meetups to encourage the women of Kingston to showcase their interest in tech. Women of different skillsets met to discuss programming, work on projects, and meet like-minded individuals. In September 2016, Sudo began offering free programming workshops for women to improve their technical skills.

Each workshop focuses on a particular project to complete. With the aid of skilled volunteer mentors, students have the necessary requirements to make the project their own. Past workshop topics have included, Introduction to Web Development, Creative Computing in Python, Introduction to Computer Science, and Wordpress Basics.

Application Process

To apply, send a resume and a couple paragraphs about yourself and your experiences to **hello@sudolabs.ca** by no later than **Tuesday, October 31st, 2017**.

Positions Available

SPONSORSHIP COORDINATOR

The Sponsorship Coordinator is responsible for requesting and coordinating corporate sponsorship for Sudo. Roles include contacting local and global businesses with sponsorship materials, assisting the executive team with finance, and communicating Sudo's mission effectively.

Programming experience is not required.

WORKSHOP & CURRICULUM DEVELOPER

Workshop & Curriculum Developers are responsible for the workshop content. The role includes writing new workshop material from scratch, adapting and updating current workshop material, creating content guidelines to be passed on to instructors, and communicating effectively within the Workshops team to propose new ideas.

A programming background is required for this position.
